<b>Question 1</b>	<b>What experiences have you had that has prepared you to be a School Board Member?</b>				<b>What experiences have you had that has prepared you to be a School Board Member?</b>						<b>What experie</b>
			I have been honorably serving the community and district since graduating from Anthony Wayne High School in 2012. I joined the Monclova Township Fire Department right out of graduating and serve as an EMT/Firefighter. I have been on the front lines of the Covid-19 pandemic where I cared for the very first confirmed Covid Positive patient in Lucas County and have been serving on the front lines ever since. I constantly work with experts in the health field and feel like I have greater understanding and knowledge than any other candidate.	In recent years, I have been asked to serve on advisory committees for Anthony Wayne's Agriscience Education program, Penta Career Center's Satellite Agriscience Education programs, and I was a part of the district-wide Portrait of a Graduate committee for Anthony Wayne Local Schools in 2019. This work has added to my ability to collaborate with others from different backgrounds. In addition to those committees, my career as a cattle business manager requires me to gather information to manage risk in the markets and to generate profits for my employer. I will bring these experiences together to serve as an effective board of education member.	35 years of public education as a teacher, coach and Administrator. I have also served as a Board Member on the ESCLEW for 6 years, one as Vice President and three as President.						
<b>Question 2</b>	<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>				<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>						<b>What are y a</b>
			I want to ensure that children are being taught conservative educational principles. The most pressing issues for the district right now are student safety, education and parental involvement, Drugs in the district are a major issue, and I want the district to do a better job of monitoring and screening for illegal drugs and paraphernalia in the schools. The current mask mandate could put some students at risk only parents should decide whether their children should wear masks. Internet bullying is another safety concern, and I want to find a way to work with teachers and parents to monitor online bullying and hold those who participate accountable. A child's mental health is just as important as their physical health. Education should focus on traditional, conservative values giving them the tools they need to be model citizens. I want to be the voice for the parents of the AW district!	When I think about what challenges our ability to improve educational outcomes it is coming up with additional pathways for students that are not interested in attending a traditional four year college. Students can also start their own businesses, enlist in our armed forces, enter the workforce directly, or combine some of these to match their goals for their futures. We are located in an area with an abundance of different industries for students to investigate such as agribusiness, healthcare, and manufacturing. The earlier we begin to offer exploratory opportunities, the sooner they can begin to see the overlap between what they're learning in the classroom and how that applies to their field of interest. I will work to create relationships with those industries to create opportunities for students to get hands on experiences and help them make plans for their future success.	ESCLEW works with a number of school districts helping them find the best solutions for their individual needs. As long as we have open communications with the districts we work with educational outcomes will improve.

<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>	<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>			<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>	<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>	<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>	
Six years as a township trustee, 13 years in administration, Volunteer in community and schools		I've served on several boards in a variety of leadership positions in the past. I was the President of the Whisperwood Homeowners association for 3 years and for the past year I've served on the Village of Holland Planning Commission. I look forward to engaging a larger portion of the Village of Holland and to continue to serve the Village and help it to grow and prosper.					Through my career at the University of Toledo, I have gained experience relating to government spending, budgeting, and experience applying for grants. I have also had the opportunity to be a leader in several capacities throughout my career at the University of Toledo.
<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>	<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>			<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>	<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>	<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>	
To provide safe roads to the residence and travelers on our roads. Fiscal responsibility with township budgets.		To continue the traditions of responsiveness and openness that the Village Council has prided itself on for years. My family and I have loved our time as residents of the Village of Holland and I want to continue to help this community to grow, develop, and thrive.					My highest priorities include the following. Thoroughly investigating the Jerusalem Township Zoning Department for fairness, accuracy, and honesty. I plan to improve access to publicly available documents relating to the Zoning Department. I plan to personally investigate and research, past and present zoning cases in Jerusalem Township, to ensure that the goals of the Jerusalem Township Zoning Department, actually are in line with the goals of Jerusalem Township residents. In addition, I would like to implement procedures and safeguards to prevent nepotism, across all aspects of Jerusalem Townships responsibilities. This would include more thoroughly vetting job applicants, and requesting current township trustees and employees be more up front with personally vested interests involving new hiring of township employees.

<b>this office's</b>	<b>List your judicial experience (courts and years)</b>	<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>						<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>
		I have been serving the citizens of Maumee since June 2017 in the capacity of council person. I have served on several committees and boards including Maumee Indoor Theater, JEDZ (Maumee, Monclova, Toledo), finance, and Master Plan. Prior to my city position I held positions in finance and accounts receivable in medical offices for the past 37 years, specializing in insurance billing and collections. My fundraising endeavors over the past 16 years has taught me how to network effectively, organize events on a large scale, and keep financial records that stood up to a state audit.	I am a licensed journeyman electrician in charge of supervising and training apprentices and have held leadership positions throughout my life in both volunteer and professional capacities. As a near-lifelong resident of Maumee, I'm in tune with the recent history of our city and the particular political climate that Maumee City Council currently operates under. For the past four years, I have made a point to attend nearly every council meeting, which has provided me with abundant insight into how our government is run as well as paths to improvement. I currently serve on the Charter Review Advisory Commission, Building Standards & Appeals Board, and Maumee Indoor Theater Advisory Board. I have also previously worked as a Maumee High School Marching Pride and Indoor Drumline instructor (15+ years). Finally, I am a committed Maumee resident who is invested in helping Maumee grow and progress in a direction that benefits all residents now and long into the future.		I believe that City Council members' most important responsibility is ensuring residents receive the services they need to live their lives with as few encumbrances as possible. People's desires change over time as do the options for satisfying those desires, so making wise decisions is essential work for Council members. During my 30+ year career in engineering/consulting, I have been responsible for providing solutions for clients' needs. I have done so by (1) listening - How is the need described?; (2) asking questions - Clarify the need. Understand the current service delivery process; (3) obtaining data - How does the current process perform?; (4) developing alternatives - What can be improved? How can it be implemented? How much will it cost?; (5) recommending solution - Involve teams to determine the best alternative for implementation. I have used these skills in serving my church as a Trustee for many years and I will also use them to serve the residents of Maumee.	I feel that all of my experiences in my life thus far have built upon each other to make me who I am and shape my viewpoint today. All past thoughts, actions and emotions drove me to the decision that the best way to make change on a larger level is through policy/legislation. I have experience running a household and raising two children along with starting and running my own business. More specifically, my experiences working with the City of Maumee and attending City Council meetings along with going through the process of getting topics on the agenda for consideration/vote has directly prepared me for the position I am seeking and its responsibilities.		
<b>How will you</b>	<b>What about your non-judicial legal experience qualifies you to be a judge? Why are you running for this particular court seat?</b>	<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>						<b>What do you think you will do to improve the city?</b>
		1. Economic Development - Maumee must attract and retain businesses in an effort to expand our tax base through income taxes. This will enable us to fund more services and hire more personnel to provide those services that Maumee residents have come to expect. Making Maumee business friendly has already accomplished this and I plan to support keeping this process easy for business. 2. Master Plan/Uptown Revitalization - Maumee leadership has a responsibility to have a plan for the future success of the whole city and this must start with a master plan. This process is not one that be done overnight and change is not easily accepted but I am confident that we are heading in the right direction through altered traffic patterns, zoning changes (including DORA), and a safer and more attractive uptown and city as a whole. 3. Transparency/Information - Making public access to the functions of the city easier through our website, Facebook page and local newspaper. Information is power.	My highest priority if elected will be to improve the channels of communication within Maumee. Without a reliable flow of information between the city and its residents, we are forever fighting an uphill battle where incomplete pieces of information are filled in with assumptions or half truths. My plan is to build accountability into information sharing on the part of the city and government that creates predictability for the residents so that when changes, updates, or newsworthy events occur, residents will know exactly how and where to get accurate information. We already have multiple tools at the city's hands for the dissemination of information, including a city website, a Facebook page, a quarterly newsletter, a city newspaper, and a newly implemented text alert system. By utilizing these tools to build and share a communication cadence, all residents will know precisely where they can look to find any answers they may desire.		Two major initiatives are underway in Maumee: Uptown Revitalization and Sewer System Upgrade. Both are multi-year efforts that require sound planning and implementation oversight. As a member of Council, I would expect to serve on the committees that are responsible for these projects. I will use my skills to ensure these projects are following a detailed plan and, if necessary, to suggest adjustments to the plan based on real world conditions. I would engage other Council members, the Mayor and the City Administrator in seeking to adopt any recommendations that emerge from committee deliberations.	Our city's issues with pumping raw sewage into the Maumee River and our sewers needing upgraded and fixed. The City is going through the process of getting the sewer problem planned and fixed but I plan to ensure that this project is at the forefront of the budget and concerns of everyone until it is fixed. Our Master Plan needs updated (last one was 1975). I have been trying to get the city to get the Master Plan updated for the past 3 years and so I will continue to push for this at a better seat at the table. We have a Master Plan Committee formed and the project has been budgeted but now we need an RFP/RFQ published so that we can start the project. The city needs better communication with it's residents. I will continue to push for better communication and suggest that each council member takes turns to address any concerns brought up by citizens at public meetings. I will also make sure communications are put out by the city and might start my own communication with residents.		

SCHOOL DISTRICT BOARD OF EDUCATION MEMBER		MONCLOVA TOWNSHIP TRUSTEE				NORTHWEST OHIO EDUCATION SERVICE CENTER DISTRICT 3 GOVERNING BOARD MEMBER

<b>ences have you had that has to be a School Board Member?</b>		<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>				<b>What experiences have you had that has prepared you to be a School Board Member?</b>	
		I have been in public service for over 38years. I was the president of Springfield Township Firefighters union for three years. I have been a board member of Waterside Monclova HOA, for the last 11 years. I was president of the HOA ae, we have 602 homes with about 1,000 residents. I was President of the student body in college. I have always been interested in politics and involved in the politics where , I would and live	I have valuable team building, communication, and project development skills. Over my tenure, as a Board member of the JEDZ, and through working with the LCTA I have learned to work effectively and efficiently using the strength of township government. I have been a resident of Monclova Township since 1994 and have had the pleasure of living in a more rural neighborhood on Albon Road and more recently returned to subdivision living. The decision to run for re-election was made after speaking with residents, county partners, fellow elected officials and family, where it became clear my qualifications were still very needed in township leadership. Looking to the future, residents can expect a strong voice for their neighborhoods, their safety and their tax dollars. With my management skills, the growth of the township will include an experienced vision and the willingness to listen. My conservative fiscal policy will ensure tax dollars are spent wisely.		I've worked at Yoder Machinery for 40+ years and have acquired a wide range of business skills from accounting to insurance, from payroll to employee management and everything in between. Besides my day job, I hold real estate and auctioneer licenses. My husband and I also own and manage our own rental properties around NW Ohio. With my business background I believe I am very well qualified to serve the Monclova Community.		
<b>think are the biggest challenges educational outcomes? How do tend to address them?</b>		<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>				<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address</b>	
		I would like to see more economic growth in Monclova. Full time Fire/EMS , right now all of our Fire/EMS is provided by part time employees. We do have three full time Chiefs. Right now we have one Lucas County Sheriff deputy taking care of all of Monclova Township, which is 20 square miles. I would like to see Monclova Township have our own Police department. We need to have better safety service for the residents of Monclova Township.	As Trustee, I fight for the needs of residents. Priorities include zoning, safety and fiscal responsibility. I believe in zoning that is business friendly yet protects neighborhoods as well as the rural nature of Monclova. During my tenure as trustee an updated zoning resolution was created. Currently the township is updating the land use plan. Additionally, safety services are a priority with a strong contract with the Lucas County Sheriff and a dedicated fire department. The approach is always fiscal responsibility. I have grown our JEDD and JEDZ. A TIFF was recently added to make sure funding resources remain strong. I began as a Trustee with the interest to preserve Monclova Township as a great place to live, and have served the township's residents by listening to their concerns and taking action. I remain committed to making sure the neighborhoods are represented in zoning matters, the roads are maintained and cleared, and that safety is a priority.		Regulating the subdivision developments in the township. Monclova is in the process of updating their zoning resolutions. Growth needs to be done smartly and deliberately, not haphazardly. The township needs to have interaction with the JEDD (Joint Economic Development District) and JEDZ (Joint Economic Development Zones) on tax dollars that have collected. Monclova is also expecting to acquire a large amount of money from the federal government (American Rescue Program) which needs to be put toward the best possible use according to the guidelines allow. I'm committed to conservative principles: limited government, lower taxes, and personal responsibility. When elected, my focus will be on spending our tax dollars wisely and concentrating on the ascribed duties of a trustee: maintaining township roads and cemeteries, providing a safe environment to our residents by offering an outstanding fire/EMS department, and patrolling our roads with police protection.

<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>				<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>		
I was elected to City Council in the fall of 2007. I have been re-elected 4 times. I have always been truthful to our citizens whether they had agree or disagree with the answers that I have given them. I will continue to be a voice for all community.	I have had an opportunity to see the city of Oregon grow into a major energy producing entity. With the introduction of natural gas plant we have diminished emissions significantly. Our water treatment and other infra-structure has continued to grow and expand. We have developed an Ozone system of treating our drinking water which no longer requires the use of harsh chemicals to prepare it to become safe to use. We have developed plans for a major Towne Center with the purchase of key properties. Our recreation program continues to partner with our great city school system and we have been partners with the Oregon community Theater, including the children's programs and the Oregon-Jerusalem Historical center has made great strides forward with the support of the City of Oregon. As chairman of the Finance Committee of Council we are proud to congratulate our city Finance department for earning an award from the State of Ohio Auditor for outstanding performance.	My experiences come from my background in operations management and owning various small businesses. Being able to handle many situations and different personality types all at the same time is invaluable. Working hard to get a project completed on-time and in budget or striving to make sure that those I were in charge of stayed safe and sound is the same passion that I will bring to the people of Oregon Ohio.				I am a 10-year member of the Oregon City Schools (OCS) Board of Education. As a Board Member I have served on Legislative, Finance and Capital improvement committees. I am the current Board Vice President. I also serve on the Northwest Region Executive Committee for Ohio School Boards. I attend the annual Capital Conference for Ohio School Boards and attend training sessions that they present on specialty topics for Board Member education. Prior to being elected, I was employed by OCS as a teacher for 36 years, with additional duties coaching girls' basketball for 17 years and being the director of adult education for 10 years. After retiring from OCS, I was the technology director at Cardinal Stritch Kateri Schools, a private institution in Oregon, for 5 years. Outside of the educational field I have been a member of Oregon and Jerusalem Fire departments for 30 years and currently I am Assistant fire chief for Jerusalem.
<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>				<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>		
Working on and continuing to working hard to develop our city's town center to bring in new restaurants and business that our community is asking for. I plan on being involved in the selections and reaching out to these establishments to seek out their interests.	We are recovering from the Covid Pandemic both financially and socially. We have to be cautious, but I remain optimistic. We are fighting for every dollar and grant that the federal government has available to aid cities. We are in the process of improving safety on our roads by building dedicated right turn lanes going north and south on Coy Road at Navarre Avenue. Improving the quality of life for our citizens by attracting new restaurants and other fun events to engage in. I have been a driving force behind the the new farmer's market "rollin" food truck events on Dustin Road. As a psychologist I know how important good jobs are for our citizens to raise strong, wholesome families. Our Economic Development Foundation is working tirelessly along with our Chamber of Commerce to attract high paying jobs for our children and grandchildren. We are working to attract market rate apartments coupled with high paying jobs to help keep our greatest asset, our youth, in Oregon	My highest priority is to be transparent to the people of Oregon, Ohio. I plan on having an open discussion time with them every 6 months or so, so that I as a councilman can know what the true issues are in the city. I feel that the current city council forget that they work for the people of Oregon. I will never forget or act like it does not matter, because the truth is I am going to work for my neighbor, my community, and everyone that resides in Oregon, Ohio. I also plan to bring in better business, not just "big business". I also refuse to vote in favor of anything that is going to destroy the natural beauty of Oregon just because of a bump in tax dollars.				We continue to deal with a pandemic that has altered the normal educational system. Standardized testing designed to evaluate student performance needs reworked. We are challenged daily to sort through and address misinformation disseminated by social media. I will work with the administration to assure we provide a learning environment that gives students, parents, faculty, support staff, and community a feeling that our system provides a safe and effective educational atmosphere. The current standardized testing controlling state report cards and the district evaluation process needs reworked to provide a fair comparison of all educational environments. Every institution needs to be required, to be evaluated equally, allowing for a true standardized atmosphere. I will work with administration, staff and parent groups to find ways to distribute necessary information in a timely manner knowing that it has not been tainted by misinformation designed to disrupt education.

<b>What experiences have you had that has prepared you to be a School Board Member?</b>					<b>What experiences</b>
I served on a school board in Illinois before moving to Ohio to retire. So I have been on both sides of the fence both as a parent of four children and a board member. I was not impressed by the direction the Illinois schools took. Since moving here I see some of the same issues coming up that we faced in Illinois but now I know where the trends lead. That gives me a distinct advantage over other candidates.		39 year veteran teacher, Teaching mentor, 12 years on OCS Board of Educ., 7 1/2 years as President of OCS Board of Educ., 1 1/2 years as V.P. of OCS Board of Educ., Student Achievement Liaison, Legislative Liaison, Policy and Personnel Committee, Attended OSBA Capital Conference 11 of 12 years and the annual OSBA Spring Conference 12 of 12 years for Board Member training, 9 years NW OSBA Executive Committee, OSBA SALT Committee, NW OSBA 2021 President, OSBA Trustee, OSBA All Ohio School Board 2020 (One of five so honored in the state of Ohio)	My passion as a teacher is to provide the best educational foundation for my students. I have a Bachelor of Education degree from the University of Toledo and a Master's in Business Management from Liberty University. For many years I taught a medical office management program through our public school system, and for the past 7 years have been teaching a business management program at the maximum-security prison here in Toledo, Ohio. I see firsthand the outcomes from the lack of education, because 70% of the prison population never obtained a high school diploma. I want to be part of the solution to this devastating reality.	I have 27 years of experience in higher education administration, retiring as Associate Vice President at the University of Toledo in 2020. The experience gleaned in that time - both from an educational and business perspective - is invaluable and immediately transferable to the Oregon School Board and the challenges facing the district and its children, both short and long-term. Additionally, I previously completed (for 1 1/2 years), the unexpired term of an Oregon School Board member and am currently doing the same for a six month period. Experience and knowledge of K-12 education and the City of Oregon and Jerusalem Township matter.	
<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>					<b>What do you thi educational outc</b>
FIX FALLING TEST SCORES: Our test scores are falling across the board. We need to allow experienced teachers to teach, instead of bogging them down with more burdens of administration. I'd strive to make academic excellence the #1 measurement of district success. PARENTAL INVOLVEMENT: Parents have a right, a need to know, as well as a consent to anything outside the curriculum that affects their child. Actually they need to be able to have access to the curriculum too. With all the means of communication today certainly we can use the best motivational tools, which are the parents, to help our students and guide their growth in areas that affect academics. RESIST THE LATEST FAD THEORIES: We are educating not indoctrinating our children. Things like CRT, CES and SEL or whatever name programs use, should be resisted in order for our teachers to focus on teaching. There are only so many hours in the day. We need to focus on our educational mission.		The number one challenge educators are facing today is the "Covid Effect" i.e., the lack of progress that students across the state have made during the past year and a half. Oregon City Schools offered two sessions of credit recovery in the high school and tutoring/classes for our younger students during the summer which included transportation. We will continue to offer support for those students in need during the school year through tutoring and after school classes. In addition, every student has a personal device which can be used for online learning (such as The Kahn Academy) to further close educational gaps. There are plans to continue summer school for our students in 2022 and in 2023. Our District is also currently in training with FOCUS 3. This culture building program empowers teachers, staff and students to be the best version of themselves. It is our greatest hope that we will be able to keep our students in school the entire 2021-22 academic school year.	Because of Covid-19, the demands and pressures, coupled with the emotional and psychological stressors, require more emotional support for our students and staff. We have all experienced tremendous stress and loss. To overcome these barriers, we need to provide the tools to address and deal with them. Professional development geared toward a holistic approach to education will help begin this healing process. Extra mental health providers will assure existing problems don't escalate. Teachers cannot provide the academic instruction for our students until the emotional barriers are broken. Appealing to the community for classroom volunteers, that are trained to address these issues will be a top priority. I know there are many people from parent organizations, churches, and civic organizations that want to be part of the solution and understand the value of education. We need to ask and ask and ask. A rigorous campaign for volunteers will produce results.	The pandemic has had a dramatic impact on our children. The biggest challenge is keeping kids healthy and in school, so that educational outcomes improve. Studies and test results show that online learning cannot replace the face-to-face interaction between students and their teachers and the social interaction that's needed between children. No one likes wearing masks but we must do whatever it takes to keep kids in school. We must also work to eliminate learning gaps resulting from the pandemic. Federal funds give Oregon City Schools the chance to improve outcomes with additional tutoring. I will also promote analytics-based long-term strategic planning and outcome measurement, so that we may improve the educational experience for our kids and their families. This is, without a doubt, the most challenging time in our lifetime and we need board members committed to the health and safety of our children and their success, because when they succeed so too does our community.

<b>have you had that has prepared you to be a School Board Member?</b>	<b>What experiences have you had that has prepared you to be a School Board Member?</b>			<b>What experiences have you had that has prepared you to be a School Board Member?</b>			<b>What experience</b>
I have spent more than 33 years in Law Enforcement. I had numerous assignments and worked well with the school administration as the Assistant Chief of Police. I have had to deal with politics and know when you have a chance at completing something and when you do not. I also know when to push and when to back off. I also coached for 10 years at Clay High School. That taught me how to deal with parents. As we recently saw at the most recent school board meeting people are not always thinking things such as the pandemic and safety protocols all the way through. As you can imagine, I am not easily excited. I know what needs immediate attention and what can wait. I believe that my position on the police department and interaction with parents for various reasons have built trust in the community. I also had the fortune of being both the command officer, and patrol officer union presidents which should build trust with the teacher federation.	Parent of 3 daughters, long time advocate for community and students					I have been actively involved in our school community in many capacities over the last 15 years, from volunteering in the elementary school classrooms, teaching Junior Achievement, and leading Girl Scout troops to serving on the executive board of our Athletic Boosters, co-chairing the Green Bear Ball (biennial school fundraiser) and co-chairing the most recent levy campaign. I am well-versed in the operations of our District and I am aware of our strengths and opportunities for growth and improvement.	4 yrs Ottawa Hills Village Council 6 yrs Ottawa Hills School Board 20 yrs in the Village...I have been around.
<b>What are the biggest challenges to improving outcomes? How do you intend to address them?</b>	<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>			<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>			<b>What do you think are the biggest</b>
We need to be honest with our students. We need to really explore their desires and talents. I have a pet peeve of pushing someone to go to college only to have them graduate with a lot of debt and career possibilities that will only pay so much, putting them behind the 8 ball very early. Colleges will take the money because that is what they do. Don't get me wrong, I support a college education. My wife, son, and daughter have degrees but we're able to do it without burying themselves, and have fulfilling jobs. The trades are a good option for those who like to work with their hands and can get paid for learning. I have a nephew who went that route and is never out of work. I would like to see someone with the schools sit down with students as they get to high school. Find out what they want to achieve and give solid suggestions to them to help them make it a reality. Help them find something fulfilling that does not cripple them financially.	Unfunded mandates from the state, emotional and mental stability of students and staff. Lobby for changes in state law, support staff and student's through education on emotional and mental health.					The greatest challenge I see in our District is keeping kids mentally and emotionally strong and healthy so they can focus on their education. The pressures and stresses on kids and families are significant. Ottawa Hills has increased the focus on support services for students in recent years, but this is an area that must continue to grow. I will approach every decision with the mindset of ensuring that our students have an environment that makes them feel safe, supported, and free to engage in their learning and discover their own passions.	Our kids are more fortunate than most in that they do not have challenges like not having shoes, breakfast, parental involvement, or safety concerns. That's why we live here and I will always defend that choice. Ottawa Hills is at the top of the mountain when it comes to educational excellence in the state of Ohio. The biggest challenge is developing well-rounded students. Test scores and college placement exams are not the end-all-be-all when it comes to comparing school districts. Our kids need to be taught how to think critically, problem solve, and develop real-world decision making capabilities. This, in my opinion, is the best use of our time, talent, and resources as a community. Now, I believe our administrators, teachers, and staff have these same goals in mind. It is my job to push the envelope, asking tough questions of them so that they can see alternative points of view rather than sticking with the "this is the way we have always done it" mentality.

<b>What experiences have you had that has prepared you to be a School Board Member?</b>		<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>			
I love to see people coming together for important causes that can result in better lives. I am applying for this position because I know I can contribute to the successful operation of this school district, and also, I hope to learn from the experience. I believe I am an excellent candidate because my current work is about setting policies, priorities, goals, and overseeing strategic planning. I embrace the opportunity to further foster relationships with the Ottawa Hills community and students, and express their interests and concerns at board meetings and school functions.	First and foremost, I am a dedicated parent with two children in our school district. And, in addition to being a professional educator for the past 30 years – at both public school and university levels – I have spent the last several years in higher education administration. Serving as a University Department Chair and as a Program Director, I have developed skills in communication, budgeting, public relations, team building, and project management. With a foundation in education and additional administrative experience behind the scenes, as well as in the public eye, I believe I am well-prepared to be a School Board Member.	As a member of Ottawa Hills Village Council for the term of 2018-2021, I've gained considerable experience working and engaging with the community through council, committee, and small group meetings along with numerous volunteer opportunities. I currently chair the Ottawa Hills Vision Committee and the Service and Environment Committee. I serve on the Human Resources and the Finance Committee and have served on Building and Grounds. During my term on council, I was elected four consecutive years to TMACOG's Board of Trustees. This year is my first term serving on TMACOG's Transportation Council. Other experiences include: Moving Ohio Forward: Statewide Sustainable Transportation Conference Planning Committee & the Old Orchard Neighborhoods Association – PAC Board			I have over 40 years of municipal government management experience in 5 different Ohio municipalities. During those years I was able to acquire a broad base of experience in many aspects of local government. I recognize that the role of a council member is different from that of a professional manager of the Village. I am confident that my experience will be helpful as Ottawa Hills faces challenges of continuing to efficiently provide the high level of service that our citizens expect.
<b>What are your highest priorities when you are elected, and how will you address the challenges to improving educational outcomes? How do you intend to address them?</b>		<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>			
my overall goal is to help prepare students throughout their K-12 education to work in and contribute to the most demographically diverse society and globally interconnected economy that we have ever seen. Students should be academically prepared without a doubt, but it should not stop there. They must also be resilient, and be able to collaborate with people from different backgrounds and with different abilities than their own.	The short answer – resources and focus. Ottawa Hills has the resources and the focus, which has already established the district as one of the top performers in the state. However, maintaining and improving on excellence is often more difficult than getting there. Staying current with our curriculum and instructional methods and leveraging our many strengths will continue to elevate the quality of education in our district.	All my priorities will be accomplished with support from the community and council. It is important to reach out to our citizens and encourage their participation in the decision-making process to attain the best results for the Village. My priorities: 1) Continue to improve the safety and accessibility of our street infrastructure using Vision Zero standards which includes street trees, connected sidewalks, bicycle lanes/paths, walking paths, raised crosswalks, street and path lighting, clear signage and/or signalization at intersections. 2) Continue to move the Ottawa Hills 10 Year Environmental Strategic Plan forward which includes floodplain restoration, native meadows, and recreational trails.			Maintaining and improving the high quality of life that Ottawa Hills citizens expect will be my highest priority. The high level of service enjoyed by our citizens is directly related to the people who work for the Village. Attracting and retaining the best people is critically important for the Village just as it is important in any business. Also very important is properly maintaining and upgrading our infrastructure. Continued investment in our streets, bridges, sidewalks, sewers is a necessity. We must also work closely with other government agencies which provide water and sewer utilities.

Ryan is an Ottawa Hills resident since 2013. He is the husband of Laura and the father of Miles and Calvin. He is an educator and engineer; he is a former mathematics and industrial education teacher. He also has many years in construction management.						I believe the most important qualification is having a concern for people, especially in the climate we are in right now. The people have been forgotten in the political process. I remember when debates used to be held so people could make an informed decision, but now the candidates tell the voters how to think. I think education is overrated because it is not necessary if your objective is to serve the people. I am a public servant and not a politician.				I've had 48 years as a school board member in the Springfield Local School district in Lucas County. I have been President many times and have been very active in many school organizations.	
<b>them?</b>	<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>		<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>			<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>			<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>		
Ryan is running because he has a fresh and unique perspective as an educator and engineer. He will bring his engineering and construction skills to Ottawa Hills development projects and as an educator, will work to maintain the village's quality schools.						Spencer Township is a fairly rural area, but it is quickly changing. I am working to update the infrastructure, which will hopefully increase economic development.				First would be to get our legislators to stop passing laws they know nothing about just to please their constituents back home. The Republican party is forcing charter schools on Ohio and creating a total money grab for charter and parochial schools.

**What experiences have you had that will enable you to fulfill this office's responsibilities?**

<p>A lifelong resident of uptown Sylvania, I grew up on Summit St and currently live on Maplewood Ave. After graduating from Sylvania High School in the mid 1970s, I attended the University of Toledo where I graduated cum laude with a degree in mechanical engineering technology. I have worked in construction engineering for 40 years, as the owner of an HVAC balancing company for 20 years. I am currently employed as a project manager at Dunbar Mechanical, Inc. which requires daily interaction with a wide range of people. Including business owners and their representatives, engineers, contractors, facility maintenance personnel and construction tradesmen. Throughout my years of employment I have had continuing involvement with contracts, project budgets and engineering as well as direct management of system installations and operations.</p>	<p>Having multiple responsibilities is no issue for me. I have taken 21 credit hours, played baseball, and started my MBA all within the same period of time. Law and MBA classes have allowed me to develop quick learning and critical thinking skills to take on all life's problems. I know how to manage my time well, so that each event has my most attention and effort, going to law school and running for Sylvania City Council at the same time. Life's deepest struggles bring out the best in us, and it has brought out the best in me. It has allowed me to find my purpose, and that is to make a difference in people's lives no matter how small.</p>	<p>I have over 25 years work experience in Fortune 500 companies with over 20 years in managerial roles. I have developed a diverse background in business including experience in logistics, planning, operations management, human resources, and sales. I am currently in my 12th year at O-I, after working at UPS for 15 years. I have been very involved in the community for many years. I am known to serve meals at Cherry St. Mission as well as spending numerous hours preparing taxes for Lucas County residents as part of the United Way Free Tax Preparation Program. I am currently serving in my second year as a Board Member on the Sylvania Area Joint Recreation District, after serving two years on the Board of Zoning Appeals. I am also in my sixth year as President of the Sleepy Hollow Homeowners Association, after serving as Vice President for three years. I believe I have a strong balance of business experience and community leadership to make a positive impact in the City of Sylvania.</p>	<p>I spent twenty-five years in the restaurant industry, as a chef, and as a sales representative and district sales manager for a Fortune 100 company. I have owned Advance Advertising Ltd now for 8 years; a third-generation family-owned company celebrating over seventy years in business. I have served twice as President of church council at my previous church and President of my networking group. I currently serve on the Sylvania Chamber of Commerce Welcoming Committee, welcoming new businesses to town. I have coached soccer for both my son and daughter's soccer teams for several years. Our family business was awarded the 2020 Small Business of the Year award in Sylvania by the Sylvania Chamber of Commerce.</p>	<p>I have been a member of city council for 4 years. I am a lifelong Sylvania resident with a passion for community service. I have a proven track record of being pro-business and supporting a safe and thriving community. I have served on a number of boards and committees and have passed meaningful legislation to improve our community.</p>
--	--	---	---	---

**What are your highest priorities when you are elected, and how will you accomplish them?**

<p>My first priority are the citizens and taxpayers and maintaining city budgets and funding for all primary municipal services. As a member of city council responsibilities include city budgets, zoning, contracts, and legislation regarding city services. My personal interests include planning for the future of the downtown area including the types of building and businesses to be pursued and developed. I want Sylvania to maintain its historic look and feel while remaining family friendly. I would advocate to develop a plan to reintroduce shade trees throughout the downtown and uptown residential areas with the types of trees that for decades lined the streets in the area. Also, long term planning to improve and maintain our infrastructure, specifically relocating power and cable lines underground, where feasible, to improve system resiliency and improve street views. My concern and passion for Sylvania is genuine. I look forward to serving the citizens of Sylvania.</p>	<p>My highest priorities are to maintain the status quo, while instituting new ideas and change when necessary. I love that the hard-working city employees do a great job with city services, and I will work to make sure it stays that way. Another priority of mine is to attract business ventures, and to keep businesses in the city of Sylvania. I believe that more business is not just good for taxes, but for the wellbeing and enjoyment of the city. A third priority for me is the students of Sylvania. I really want to target them by inviting motivational speakers to the schools, especially the high schools. I am not too far removed from high school and I know how high schoolers feel lost, which makes them resort to things they shouldn't do to feel the need for acceptance. A last priority of mine is to support police and fire. I believe officers and firefighters deserve the best equipment and unending support of the community.</p>	<p>I have three primary objectives growth and development, connectivity of bike and walk paths, and people-centric community. In terms of growth and development, there has been a lot of progress recently in downtown Sylvania. I would like to see that continue while also focusing on Monroe St. which serves as the gateway to Sylvania. We currently have vacant buildings, empty lots and other eyesores. I'm confident this could be revitalized quickly with the correct focus. Regarding bike and walk paths, we have many with clear start and stop points. I would like to build the infrastructure needed to connect these paths and ensure there are not any boundaries for any form of transportation or recreation. To improve on being people-centric, I believe we need to embrace diversity, inclusion, and overall engagement with our entire community. I would like to develop a forum to generate community feedback regularly, such as town hall meetings or surveys, to increase interaction and communication.</p>	<p>STEWARDSHIP A strong community needs its citizens to step forward and take on certain responsibilities that align with their strengths, and City Council is an area where I feel I could greatly serve my community. I believe I can bring a solid blend of perspective from not only the eyes of a community resident and parent but also as a local business owner, to ensure the city's resources are prudently managed. DEVELOPMENT I believe strongly in continuing to develop Sylvania to accentuate its unique attributes. These ideas would include a more vibrant and robust downtown that is family-friendly, attractive to seniors, and welcoming to the Lourdes University students. Communicate plans for the city's long term development, including conceptual ideas and how they integrate with community interests, economic growth needs, traffic concerns and that incorporate green space. Encourage more community events that draw people to Sylvania and enhance the richness of the community's daily life.</p>	<p>If re-elected, I would continue to maintain an open and transparent government while advocating for a safe community with excellent public services. I would also want to continue on the progress we have made over the past 4 years in economic development. I would accomplish this by continuing to support legislation that maintains a balanced budget while prioritizing safety and public services. I would also make sure the government creates an environment to give our businesses the best chance at success.</p>

<b>What experiences have you had that will enable you to fulfill this office's responsibilities?</b>			<b>What experiences have you had that has prepared you to be a School Board Member?</b>		
Serving on Sylvania City Council from 2008 to present and serving as president of Sylvania City Council from 2012 to 2021; Currently, I serve as chair of the Streets Committee and as a member of the Annexation and Zoning, Finance, and Safety Committees. Prior to serving on Council, I served on the Sylvania Municipal Planning Commission. Additionally, I serve as an Executive Director of local non-profit organization. Member of Sylvania Chamber of Commerce.	I graduated from Northwestern University and worked as a corporate operations manager before starting a business with my husband, Tom. We built a food truck which grew into multiple storefronts and catering business. After 10 years, we sold the business and moved to Sylvania to raise our 2 children. My first civic involvement was leading a neighborhood group to petition city council to replace outdated playground equipment and then organizing a community build project. I have been a pro-active City Council member for 14 years. I am on multiple council committees and chair the Parks & Forestry Committee. I am involved with many community organizations including the Sylvania Area Joint Recreation District as a board member. I am on the Sylvania Chamber Welcoming Committee and a member of the Red Bird Arts District. I started the Sylvania downtown banner program. I served on the Sylvania Arts Commission, the Fall Festival committee and the TMACOG Natural Resources Assistance Committee.	- Manage own business since 1984 Stough and Stough Architects. - Successfully negotiated new regional water contract. - Past Chair of TMACOG Toledo Metropolitan Area Council of Governments. - Past President of NOMMA Northwest Ohio Mayors and M		I have served on the Sylvania Board of Education since 2010. During my tenure, I have built strong relationships with our teachers, staff, administrators, and community. Those relationships, built on trust and respect, are crucial to moving forward and working together to do what is best for students. My time on the Board has given me the experience necessary to help keep the district moving forward, especially in these challenging times. In my family law practice I have gained valuable negotiating and mediating skills that enable me to guide my clients to the best possible outcomes for themselves and their children. I have been a member of the Sylvania community for almost 40 years. I graduated from Sylvania Southview and my children are graduates of Sylvania Northview. I have always been active in the schools and in the community, from volunteering at school events to serving in leadership roles for school organizations.	Jill Johnson has been a resident of Sylvania for over thirty years. She currently resides in Sylvania Township with her husband Dr. Larry Johnson, a licensed psychologist. She has grandchildren attending Sylvania schools. Jill is a Certified Family Nurse Practitioner, practicing for 20 years in Family Practice, a general Surgery Practice, and Oncology. She received her Master of Science in Nursing from The Medical College of Ohio At Toledo (aka UTMTC). Prior to that Jill received both a Master of Public Administration/Healthcare Administration, and a Bachelor of Education (non-teaching) degrees from the University of Toledo. She obtained a Registered Nurse degree from Toledo Hospital School of Nursing. Her early career experience included leadership/management positions, school nursing, and Home Care Administration. Jill is a Board Member, Sylvania Area Family Services, an active member of St. Joseph's Catholic Church in Sylvania and serves as a volunteer for Victory Center.
<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>			<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>		
, I see my priorities as being a good steward of community resources and a voice for the citizens of Sylvania. I am committed to: IÇó Strong fiscal management and balanced budgets. IÇó Economic development opportunities and bringing new businesses to our community IÇó Supporting law enforcement to maximize the safety of all citizens of Sylvania. IÇó High quality city services including cost effective trash and recycling, appropriate street maintenance, reliable water and sewer services and more. I will accomplish these things by working with Sylvania City Administration and fellow council members to ensure that the focus remains on building a strong, vibrant, desirable community that delivers high quality life style opportunities for all citizens.	I have worked hard to bring vision to Sylvania City Council and am proud of what has been accomplished over the last 14 years but what we've lacked is an overall long-term vision. A vision that's based on public engagement and provides a detailed picture of how we want our city to look. With this road map we can begin to recruit the business that will thrive in Sylvania as well as manage the changes coming our way in a more organized manner. When I'm elected Mayor, I will continue the re-development of downtown, with a plan for an updated streetscape that supports business and our designated outdoor refreshment area (DORA) as well as start identifying funding sources for it. I will also work to create connections throughout our community to make it more accessible for all modes of transportation. I will maintain the high level of services that city residents expect and stay committed to effective use of your tax dollars.	- No new taxes collected by the City of Sylvania. - Continued safe neighborhoods with professional and responsive police and fire services. - Neighborhood services including street improvements without assessments, trash collection, curbside recycling, sn		The biggest challenges facing educational outcomes are school funding and standardized testing. While Ohio has worked to pass "Fair School Funding" as part of the recent Biennial budget, there continue to be major concerns, including vouchers and EdChoice Scholarships. Voucher programs divert money that could be used to support the 90% of Ohio students who attend public schools. As for standardized testing, the state continues to use high-stakes testing to evaluate students. The focus on raising test scores diminishes opportunities for teachers and school districts to teach authentically and for students to learn authentically. While on the Board, I have supported resolutions geared toward reducing testing and addressing school funding. I will continue to speak out on these issues and support the effort of groups and individuals focused on making change in these areas. I will continue to listen to and support education professionals.	Adding a medical presence/ knowledge to the Board, making decisions based on valid research. Concerns requiring mask wearing and in-school education. Preserving classical education-developmentally appropriate. Teaching fundamentals in all subjects to adequately prepare children for a successful future. Fiscal responsibility -appropriate allocation of district funds (needs vs. wants), and representation of the Baby -Boomer and Retired population regarding taxation. Preserving classical education-developmentally appropriate. Teaching fundamentals in all subjects to adequately prepare children for a successful future. Preserving honor and respect for this country through education. Prior to that Jill received both a Master of Public Administration/Healthcare Administration, and a Bachelor of Education (non-teaching) degrees from the University of Toledo. She obtained a Registered Nurse degree from Toledo Hospital School of Nursing. Her early career experience included leadership/management positions, school nursing, and Home Care Administration. Preserving honor and respect for this country through education. Preserving classical education-developmentally appropriate. Teaching fundamentals in all subjects to adequately prepare children for a successful future. Jill is a Board Member, Sylvania Area Family Services, an active member of St. Joseph's Catholic Church in Sylvania and serves as a volunteer for Victory Center.

			<b>What experiences have you had that has prepared you to be a School Board Member?</b>		
I am a proud parent of three children in Sylvania Schools, currently in grades 8, 10 and 12. I am also a partner in a small Sylvania Township law firm, so I approach this role from the perspective of a resident, parent and local business person. Since my children were young, I have volunteered with their school and extracurricular activities whenever possible. In recent years, I followed Board of Education meetings and became acquainted with some of the big picture decisions that go beyond what is happening in any individual classroom or school building. I was appointed to fill a Board vacancy in February and now seek election to a full term. I believe skills I developed in my professional life, such as analytical thinking and conflict resolution, have made me a better Board member. During my brief tenure, I have worked hard to learn about the district's operations, facilities and finances so I ready to be effective from Day 1 of my new term.	I have and continue to work in business where I have gained extensive experience and knowledge that I can apply to the school board. As a project manager I work with budgets, schedules, and maintaining the project to ensure it is within scope and cost. This can all be applied as a school board member when running the business side of the school. In addition to this, project managers are known as people managers more so servant leaders. I will not dictate rather lead based on the end goal of the board, administrators, union, teachers, and parents want and are striving for, for the betterment of the students and school.	I have seven years of organizational leadership training stemming from my service in the United States Army. I trained through the ROTC program at BGSU from 1991 through 1994 and then served as a Platoon Leader, Tactical Officer and Executive Officer of a combat ready Air Defense Artillery Battery from 1994 to 1998. I was deployed during Operation Southern Watch to Southwest Asia in 1995. After my service I attended law school at the University of Toledo College of Law during which time I worked as an intern for the City of Toledo Department of Law. After graduation I served as a Staff Attorney for Ohio's Third District Court of Appeals. I have worked for the Kerger Law Firm as a employment/ litigation attorney since 2003. I have 15 years experience working as an advocate and consultant for the largest teachers union in Northwest Ohio. I represent both employers and employees in both State and Federal Court. I am a critical thinker and committed to serving my community.	30 years with Engrs office--51/2 yrs on school board--8yrs.. as Trustee(4 yrs. Chair)--served numerous capacities in Community in area of Economic Development,education and recreation(see web site)	For the last 4 years I have attended nearly 100 percent of the trustee meetings. I have witnessed and participated in those meetings. I watch with interest the interaction of the trustees among themselves and with various groups or individuals that come before them. Maybe my standards are too high but I expect more from my elected officials. I expect all citizens to be treated fairly and without favoritism. I have a rich and varied history of life experiences that allows me to serve the citizens of Sylvania township extremely well. My experience includes a work history in both public service and private industry, owner of commercial real estate, self employed labor services, volunteering for nonprofit organizations. Experience in leadership, management, accounting and good old fashioned get your hands dirty work.	
			<b>What do you think are the biggest challenges to improving educational outcomes? How do you intend to address them?</b>		
Generally, I think large class sizes (or a poor student/teacher ratio) can be a tremendous challenge to improving educational outcomes. However, Sylvania Schools works hard to maintain smaller class sizes, and I believe the district is usually successful in that regard. I will work to carefully monitor unnecessary spending so the district is able to maintain or improve current class sizes. I also believe a strong, early introduction to STEM is essential and will work to strengthen the district in that regard. Finally, I believe our district's current most urgent need is to address the learning loss our students have faced since March of 2020, and the accompanying mental and emotional health challenges. I will work to ensure we are able to continue programs meant to address learning loss such as "Summer Swing", and to increase our students' access to mental health assistance.	1. To ensure the children, the next generation, receives the quality education you expect with your tax dollars. This includes holding the school accountable to educate children on core curriculum which includes: Language Arts; History and Geography; Science; and Math. By upholding academic excellence in Sylvania Schools, our children will be able to compete in the global market. I will address this by reviewing the current curriculum and speaking to the educators to understand where improvements need to be made. I will address this with the board to understand where we can make the improvements within our budget. 2. To be a good steward of your money and to be financially responsible by limiting spending where needed and providing funding when needed. I will sit down with the CFO and go over the financials line item by line item. 3. To ensure there is a good relationship between the board, administration, staff, and union	Research suggests that there are 4 main challenges that impact student achievement- classroom management, teaching for learning, home and parent involvement, and believing that all students can learn. As a BOE member I will address these challenges by supporting our already excellent teaching professionals, supporting continuing education for teachers and administrators to ensure that best practices are updated frequently. I will also support fostering a strong relationship between our parent community to ensure parents get the support they need. Finally, I will be an advocate for our students at all times. This means at the heart of every decision I make - the question will be "does it benefit students- will it positively affect their educational experience?"	Continue to support safety forces,long range planning & zoning compliance while maintaining Area's largest residential Road system all within budget.Also continue to collaborate with local and regional Agencies to eliminate duplication, of services and support economic and work force opportunities	There are a number of issues important to me. A commitment to open government and accountability. Conducting all public business openly and in compliance with the law. Maintaining the high level of public service we expect. The understanding that I don't know everything and the willingness to seek the knowledge and experience of others.

<b>How do you fulfill this office's responsibilities?</b>					
I was first elected to the Sylvania Board of Trustees in 2009 and have served the community since 2010. I hold the management and the employees of Sylvania Township accountable for their role in making Sylvania Township a great place to live and work. Sylvania Township residents pay for and expect excellent services for their property taxes. Providing a clean safe place to live and raise a family.	His working career spanned 38 years in government finance, administration, land use/planning/zoning, and consulting/marketing of application software specifically for governmental computerized system, until retiring in 2012; Included public service in the Sylvania Township Zoning Office; Asst. Finance Director/Data Processing Manager in City of Sylvania; Regional Account Mgr for Software Solutions, Inc. (Lebanon, OH); Finance Director in City of Huron, OH; Finance Director/Treasurer in City of Grand Ledge, MI; Software Specialist (Fund Balance)/GASB 34 Sales Rep for Tyler Technologies; Finance Director in City of Macedonia, OH; and Finance Director in City of Pepper Pike, OH, retiring in 2012. In 2019 my wife of 43 years, Cindy retired, and with our son, Matthew returned to our hometown Sylvania Township, OH. Accomplishments: Γ'Çó JEDD I District Board of Directors Workers Representative Appointed by Township Trustees Γ'Çó Past President of the North Central Ohio MFOA (see website all)	I have been self employed almost my entire adult life. I had to file bankruptcy in 2014 because of a fire that destroyed my business and had to start all over again. I now own Napa Auto Care Center, Huss Towing and Auto Financing USA. I have a lot of experience in negotiating deals, budgeting and managing. I am always open minded to learning and taking advice from people who are more experienced in a field that I'm not familiar with. I am part of the fabric that makes Toledo so diverse, I have worked with people from all walks of life and ethnic backgrounds. These qualities have helped me in business and life, to take a common sense approach in solving any problems I have come across.	As an urban planner, I'm trained in how to build good neighborhoods, how to facilitate economic development, and how to enhance the quality of life in an area. We have done just that in my work for the Downtown Toledo Development Corporation by making investments in our infrastructure, by facilitating job growth, and by restoring our housing stock in downtown. We have made downtown Toledo the preeminent example of neighborhood revitalization in Toledo. I also serve on the board of the Toledo Design Collective. In my work with TDC, we have conducted neighborhood community planning efforts for some of the most disinvested communities in Toledo. This work requires me to meet with community residents and stakeholders and I've learned the struggles of these communities- but more importantly, I've learned about the aspirations of these communities and how we can work together to build stronger neighborhoods for all Toledoans.	I have experience that meets the moment as a public health professional, gun violence prevention advocate, and educator. I've worked with community clinics to strengthen access to medical care for underserved populations, directed preventative healthcare initiatives, published public policy research on gun safety, and educated students during the pandemic as both a university instructional assistant and a substitute teacher in TPS.	I have over ten years experience in working with neighborhoods, unions, and community groups to advance legislation and funding opportunities. Since joining Toledo City Council, I have passed over 50 ordinances that address key issues like wages, the environment, water quality, and Covid relief. I proudly serve as the Chair of the Water Quality and Sustainability Committee where we have worked on affordability measures, recycling, and ensuring clean drinking water. I also created the Water Quality and Consumer Protection task force which reviews, researches, and recommends policy initiatives to address the City's water needs. I work with a similar group structure that represents tenants and landlords where we develop policy initiatives to address affordable housing and barriers to housing that residents of the city experience. During Covid, we focused on rental relief, mortgage relief, and reducing the harms of the current eviction crisis.
<b>How do you plan to be elected, and how will you accomplish them?</b>					
Continue to watch over financial issues that affect the residents of Sylvania Township. Keeping our community affordable while providing excellent services to our residents.	Mr. Sengstock is interested in continuing the economic development policies initiated by the Township and City, including a primary goal of mutually beneficial sharing of tax revenues while maintaining the historic values of Living in Sylvania Township'. He was appointed to the 1st JEDD (Joint Economic Development District) board as the Worker Member' that allows him to share experiences and knowledge learned in administering other JEDD's in Ohio communities. His goals include the continued improvement of operational efficiencies in delivering 1st class services to residents and taxpayers. Mr. Sengstock pledges to be an independent voice representing transparency and accountability to the residents and businesses in the Sylvania area while upholding the United States and Ohio Constitutions and the Laws of Ohio. Being a Trustee will require team work and calm leadership, all working together for common community goals and objectives; without abrasive personal political agendas.	I would like start back with the basics. If you look at any successful city, they are all safe and have very low crime. We need to increase our police officers, fix our roads and sewers. We need to work on our city landscaping, garbage and lighting. We need to do our best to keep all work done in Toledo by Toledo companies. All this is easily obtainable by balancing the city budget. We need to visit every department and meet with the staff, not management. The staff are the one's in the trenches and they should be the one's we ask about everyday problems in their departments. Example: Wasteful spending, under staffed or over staffed, what can we do to save money or make things more efficient.	My top priority as a councilman will be to make sure we reinvest in our neighborhoods that most desperately need it. We will focus on three key areas to make sure our neighborhoods are resurgent: redevelopment of our housing stock; investment in infrastructure, public transit, and parks; and growing our economy. These areas of focus will ensure that current residents in our neighborhoods are uplifted, that neighborhoods can continue to grow residentially, and that there is access to employment in all of Toledo's neighborhoods. If we are successful in this work, we will make strides as a community in improving public safety, lessening negative impacts on the environment, reducing poverty, and advancing public health.	Reducing violent crime, creating opportunities for our young people to succeed, and ensuring enough good-paying jobs for our people. I've put forth a comprehensive vision to reduce violent crime by focusing on both prevention and intervention. I've proposed investing in young people by creating more recreation and enrichment opportunities for kids of all ages, expanding summer jobs for teens, and opening new pathways to apprenticeships and careers. I support smart economic development to attract and retain good jobs and workforce development programs that meet local employers' needs and will stand up for workers' rights, living wages, and equal pay for women.	Upon re-election, I will continue the work that I have begun that impacts housing, the environment, and recovering from the impacts of Covid. We have much work to do in our City to repair old housing stock, remove neighborhood blight, and create accessible, affordable housing, especially for our aging and low income neighbors. I hope to continue to explore policy and funding opportunities to address the housing needs of all Toledoans. I also want to focus in on the environment, both to bring up our most precious resource Lake Erie and create more economic opportunity by utilizing our region's skilled workforce to create green technologies. Our history as a City has always to build for the future. That's what brought the Jeep and the elevator that put astronauts on the moon. We can build on our legacy by building the technologies of the future while cleaning up Lake Erie.

<b><i>What experiences have you had that will enable you to fulfill this office's responsibilities?</i></b>						
My experiences as a current At-Large member of the Toledo City Council and my decades of experience as a Grievance Representative for the Toledo Federation of Teachers enable me to fulfill the duties and responsibilities of my office. As an At-Large City Council member, I recognize that I represent all of Toledo's Citizens and am part of a 12 person team - I listen to the voices of the people and work with my fellow council members to best serve the people's interests. Additionally, as a Grievance Representative for TFT, I helped negotiate an 87% wage increase for our members - I bring these negotiating skills to bear in my work on council to cut the best deal for the citizens of Toledo.	I am running because I want to continue the good work I have started on Toledo City Council. As a CPA and since being elected, I have been dedicated to providing strong fiscal oversight by closely examining the City's budget, and helping steer the City through difficult financial times caused by COVID-19. Additionally, I have introduced and passed legislation to beautify our neighborhoods, improve our police department, progress ethics for Toledo City Council and create a Veteran-Friendly Business Enterprise Program.			I have been a licensed professional financial advisor to individuals, families and businesses for over 30 years . I also have been a 3 term member of Toledo City Council(at large). I served 11 years as Chair of Council's Finance Committee and 3.5 years as Toledo's Finance Director. Also, I was the Court Administrator for Lucas County Probate Court for 3 years. Finally, as a 3 term Councilman, I have a positive record of working with Mayor's Ford, Finkbeiner, Bell, Collins and Hicks Hudson as well as Council members of all political persuasions for the betterment and progress of Toledo.	I feel that my career experiences have prepared me for this position. I have worked for a major corporation in various positions, which has given me a broad perspective for running an organization. I have been involved in employee development, wage and salary administration, collective bargaining, affirmative action compliance, drug abuse programs, and a corporate facilitator for sexual harassment. The past ten years I have successfully run a non-profit that receives government funding which has taught me how to complete the proper procedures required to successfully receive funding. I am a past president of Community Shares, I have been the chairman of the Hunger Task Force, and I am a military veteran. My involvement in these capacities have given me an extensive background very well suited to serve on city council.	My 35 years in finance and banking. My community service includes; Elected member of Toledo Public School board; St Vincent Mercy Health Partners; Toledo Metro Parks Board; Lucas Metropolitan Housing Authority Board; Lucas County Children Services Board; Rescue Crisis Board; Cordelia Martin Health Center (NEXUS)Board; The University of Toledo African American Community Advisory Board; The Coalition for Quality Education Board and Substance Abuse Services Inc Board. My 8 years serve as a City Councilman at Large.
<b><i>What are your highest priorities when you are elected, and how will you accomplish them?</i></b>						
My top priorities when I am elected to retain my seat are 1) reducing the rate of gun violence in our community and 2) revitalizing our neighborhoods. In reality, these issues are connected - we can accomplish both things by earmarking funds from the 180 million provided through the American Rescue Plan to build new units of affordable housing and reduce blight in underserved neighborhoods, investing in community support programs including youth programs, wrap-around community centers with recreational and social services, and fostering partnerships between and among local police, community members, and elected officials. By investing in our people and providing opportunities to engage in our community through home ownership and civic engagement, we can reduce the rate of gun violence and revitalize our neighborhoods.	Top 3 issues facing Toledo are: 1. Safe neighborhoods with strong and supported public safety 2. Good-paying jobs and economic opportunities for Toledo citizens 3. Fiscal accountability and transparency of tax-payer dollars			Reducing violent crime. Reducing neighborhood blight. Using \$180m of Cares Act to benefit all neighborhoods. I will work with Council , citizens and the Administration to increase our police and fire personnel , which are understaffed now.I will also work to strengthen TPD' Gang Task Force. Regarding blight , I will make sure the bulk pick up program becomes more timely and effective; the alleys also need special attention and dilapidated housing/buildings should be rehabbed or torn down. Finally, with the \$180m of Federal money coming to Toledo, many of my issues and objectives mentioned here, can be accomplished.	Our community currently sees gun violence and crimes as our number one priority. We must get a handle on it. I've had citizens talk to me about the fear they feel on our city streets. Government's charge is to provide security to its citizens. I will challenge and support the administration in its efforts to get control of this culture of violence we have. We must address three areas: 1) the homes that are raising the younger generation into this culture must be supported by programming and the community, 2) policing and the court system must take a more assertive role in dealing with those that are committing these crimes of violence, and 3) we must save those that we can from a life of crime. We must look at training them for the jobs that are currently available and going unfilled.	1) I want to ensure as many residents as possible receive the COVID - 19 vaccine to stop the virus spread in Toledo. 2) Development of programs to stop the Gun Violence here in Toledo. 3) Distribution of the pending Federal Rescue funding of approximately \$180 million dollars, in a manner beneficial to ALL city residents. 4) I look forward to working with my fellow to continue working with my fellow council members, the Mayor's Office and the Toledo citizens for their input and direction.

	<b><i>What experiences have you had that will enable you to fulfill this office's responsibilities?</i></b>			<b><i>What experiences have you had that has p</i></b>	
As a wife, mother, and educator, I know first-hand the experiences of Toledo's working families. Since being appointed on Council in September 2020, I have created opportunities for youth, allocated resources for safe neighborhoods specifically confronting gun violence in our city, and supported legislation for economic growth to spur job creation.	Serving as Mayor of Toledo for 12 years, Vice Mayor for 2 years and City Councilman for 8 years	I have worked for most of my adult life helping to build our community. I am especially proud of the work done in my first term as Mayor. Together, we are building a stronger city. We are getting through COVID, together. We are creating jobs and building our economy. We are fixing the roads. We growing our police force and giving them more tools to do their job.	My name is Jason Sobb. I was born and raised in the City of Toledo. I went to elementary school at Ladyfield and then high school at St Francis de Sales. At that point I went off to college at the University of Colorado where I received a degree in advertising. I soon after started working at FedEx Ground where I was a part time package handler loading a trailer and ended my career running my own FedEx Ground building while moving around the western part of the United States. Along with that, I was running my own clothing company and invested which has led me to the last 7 years of mid-life retirement. I am a self-made individual and I believe everyone should be able to dream the American Dream and more importantly be given the tools to reach it. All of these experiences in different parts of the country with amazing people and unforgettable adventures have given me a unique understanding of the bigger picture and ideas I would have never had without them.	I worked for Toledo Public Schools for 30 years before being elected to the School Board in 2013. First as a school and administrative secretary, where I learned how schools work. Then as a School Psychologist where I learned what works for students, parents, and teachers to make sure every student gets a great public education. I have nearly 8 years of experience as a Board Member where I have learned to provide policy and oversight of the district. During my tenure as a TPS Board Member I have chaired the Human Resources, Curriculum and Early Childhood Committees. I am currently the Vice President and served as President in 2018. I am proud to have applied my expertise in school mental health to contribute to the development of a robust system of social emotional learning and behavioral health supports. Partnerships with community-based mental health providers has increased significantly under my leadership.	
	<b><i>What are your highest priorities when you are elected, and how will you accomplish them?</i></b>			<b><i>What do you think are the biggest challenges to improving</i></b>	
<ul style="list-style-type: none"> <li>o Youth Development: I will continue to support the development of the City of Toledo's new Department of Parks and Youth Services and other opportunities to help youth thrive in the city of Toledo.</li> <li>o Gun Violence Reduction: I will continue to prioritize safe neighborhoods through direct resident engagement, support of neighborhood associations, and budget resources for initiatives to reduce gun violence and public safety.</li> <li>o Covid-19 Recovery; Toledo's plan for American Rescue Plan Act (ARPA): Hold the Mayor's administration accountable to spend the American Rescue Plan Act (ARPA) funding according to the priorities set by the community members through the ARPA meetings and survey.</li> <li>o Job Creation and Economic Development: Support resources for the growth of Toledo's neighborhoods and businesses to retain the city's young talent.</li> </ul>	<ol style="list-style-type: none"> <li>1). Make the streets of Toledo less violent and stand behind out TPD.</li> <li>2). Coordination with Chief of TPD, Sheriff Navarre, and the State Highway Patrol.</li> <li>3). Teach young persons to work to keep their neighborhoods healthy and clean.</li> </ol>	My priorities will be to keep building on the progress Toledo made in my first term. We will keep working to create jobs and build our economy. We will continue to fulfill our promise to fix Toledo's roads. We will continue to invest in Toledo being a safer city. Together we have done a lot and together we can do more.	<ol style="list-style-type: none"> <li>1) Being the voice of the front lines. Parents, teachers and administration who are silenced or too afraid to use their voice. This is currently a major problem in talking to 1,000s of them. 2) Vaccines/masking/CRT in newly re-opening schools. 3) School friendly Homes and Parent friendly Schools I will make this very easy with two links directly involving me giving you much greater depth to my addressing the problems, both these and others. Since I am a newcomer and unknown, this will tell you all the starting points you need to know about me. <a href="https://ballotpedia.org/Jason_Sobb">https://ballotpedia.org/Jason_Sobb</a> <a href="https://www.facebook.com/realjasonmsobb">https://www.facebook.com/realjasonmsobb</a></li> </ol>	A major threat to public education is the flawed State report card system. High-stakes tests are proving to be invalid and unfair, particularly to urban districts. Using flawed tests to justify and expand charter schools and vouchers to fund religious education erodes the ability of a typical district to focus on innovative opportunities to improve outcomes for all. At TPS we developed many transparent ways for the community to see the accomplishments of our district that do not rely solely on test scores. Our Board continues to lead across the state for an overhaul of the State report card system. We currently face the serious challenge of recovering from the pandemic. We also face the ongoing challenge of addressing the needs of the whole child. The unmet basic needs of children and their families cannot be addressed by schools alone. I will continue to push to adopt Social Emotional Learning objectives, and the development of a research-based multi-tiered system of supports.

<b>prepared you to be a School Board Member?</b>		<b>What experiences have you had that has prepared you to be a School Board Member?</b>		
I started my journey as an involved parent that volunteered within the school district. I became the parent group leader at each of the schools my child attended as well as the district parent group. It was a natural progression to run for school board. I have served two terms on the school board, selected as President twice, and serve on a variety of committees within the district. I am heavily involved in the Ohio School Board Assoc. and have been nominated as the next President-Elect. I've been able to advocate at the state and federal level on behalf of public education. I was selected to attend the OSU Public Officials Leadership Academy for rising stars in public service. Serving the public as a school board member is a wonderful opportunity to give back to my community. I continue to focus on making student-centered decisions by creating educational opportunities for our students.	I have been on the Toledo School Board since 2008. Prior to my employment at the Toledo Zoo, I worked most all my professional life in public and nonprofit agencies serving youth and their families in our community as a Licensed Social Worker and administrator. I have had the responsibility for finance, human resources, and planning in these organizations. Much of my work involved problem solving and collaborating with other organizations to reach our desired outcomes. These agencies served families in the areas of child welfare and mental health. My experiences helped to prepare me regarding the challenges our students and families experience on a daily basis. I am very familiar with the challenges facing our community. During my tenure on the Board we have have conducted a performance audit and established a strategic plan that guides us in our decision making. The district is in a good financial position and and has a strong leadership team.	I have been on the WLS Board of Education for the past four years. I have served as President for two of the four years and Vice President for one. I'm an active participant in the Washington Local are and have been involved in mentoring/coaching kids. I successfully chaired a bond levy for new construction in the district; new building construction has already begun. I have become involved with education legislation and become an advocate for public education testifying at the State House in Columbus several times. Additionally, I have been in administration for over 20 years and understand the infrastructure of leadership.	Being part of Parents clubs through out my children's school years. Also I have been part of a baseball league for 10 years and the last 4 years I have been the President of the league. Plus being part if the community for over 23 years and listening to parents concerns over the years.	The experiences I have had that has prepared me to become a school board member in my district is that I am a recent alumni and entrepreneur in financial services which gives me a unique skill set and thinking to address the issues we face. Growing up I have seen the changes in the district throughout the past 16 years of what has and what hasn't worked, whether that was playing varsity sports or the changes in academic standards those experiences from growing up in the district to my current roles have shaped my thinking and have given me a good understanding of what our district needs in the current moment . As an alumni of the district I want to be able to give back to my district as a thank you for all of the opportunities I have been given throughout my time and improve our district with a different approach
<b>educational outcomes? How do you intend to address them?</b>		<b>What do you think are the biggest challenges to improving educational outcomes?</b>		
The challenges are abundant and some our school districts and boards can address; while others we must work with our community to help solve. *Poverty - continue to work with our local/state/federal governments to provide resources for our most vulnerable students. *Smaller class sizes - state/federal government to provide the investment needed in public education to reduce classroom size. *Teach-to-Test approach/focus on testing - let teachers teach/state funds towards testing companies could be better utilized elsewhere. *Educational opportunities - continue to work with and partner with our business community and skilled trades to expand career tech programs; expand the fine and performing arts (we know students who participate in the arts achieve better academic outcomes). *Mental health/trauma - provide additional counselors/social workers/mentors. *Safety/security - multi-tiered approach. *Parent engagement - expand our parent university.	1.The biggest challenge is to enhance family engagement. We have established the Family and Community Engagement Committee as a Board committee to maximize parent involvement in their child's learning.. 2. Ensuring a safe environment in our schools that promotes the student's opportunity to learn. Continue to enact policies that are student centered with the objective of promoting a culture of respect and accountability. 3. Maintain, recruit and train qualified staff who can support our students learning. Establish innovative teaching techniques that can be employed in a virtual environment. Ensure that the district has the technological infrastructure needed now and in the future.	Educational finance reform at the State level, parent involvement, evolution of technology, and working through a pandemic.	For me it is having the teachers realize that each child needs there attention and some more than others. Especially early on and through junior high to many kids get pushed by the side and labeled as not caring or trying when as all they are doing is looking for help but because of the label are left behind. So getting the teachers to take the time to learn every child and trying to connect and not label a child as not caring when as all.they might need is someone showing they care to turn there whole educational experience around.	Our district faces many challenges like most districts but the biggest main challenges to improving educational outcomes in our district is the current over spending of yearly revenue, decline of educational standards, and mental/physical health of parents and students. I intend to address these challenges by standing up for my values, working with others on the school board to accomplish our collective goals, and working with parents so that the children are best equipped to become successful adults. I will work to bring about the efficient and effective use of revenue funds, raising educational standards, tackling the food waste problem and help improve students overall health.

I am a 21-year employee of Ottawa Hills Local Schools: 10 years in curriculum/instruction and 11 years as the executive assistant to the superintendent. I've been involved with district budgets, testing, levy campaigns, negotiations, and development of board policies. I will use my knowledge and experience to assist our district administrators and staff in making Washington Local School a premier district in Northwest Ohio.	I have served on the board for the last 15 months. I have served as Vice President for the last 8 months. My financial background allows me to work with the treasurer and understand the intricacies of public school funding. My professional background has taught me leadership qualities and the ability to work as an effective team member. I have the full support of my other 4 board members and as a life long resident of Washington Local I understand and support my community					I have been on city council for 4 years and have always watched and maintained a fair budget. Member of Board of Tax Review Member of Parks and Recreation Business Owner	
<b>How do you intend to address them?</b>		<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>	<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>			<b>What are your highest priorities when you are elected, and how will you accomplish them?</b>	
The biggest challenge to improving educational outcomes, right now, is keeping students healthy and in school. COVID has affected how schools provide students with stability, routine, social/emotional support, and the delivery of a quality education. To improve educational outcomes, I plan to continue working with and supporting our district administrators in developing and exploring strategies to address the individual needs of our students to ensure their academic success. This requires reviewing student data and identifying areas of inequity and needed improvement or services; engaging parents and the community; and recruiting and maintaining highly qualified, diverse, and dedicated staff.	We are making great strides as we introduced STEM classes for all the elementary schools starting this year. Our biggest threat right now is the pandemic. Putting policies in place to ensure sustainable numbers in the schools assures the best teaching can happen. I will continue to be an advocate for every student, for every staff member, and tax payer in our wonderful district. I ask for the opportunity to continue what we have started with the rebuilding of our district, the start of our WLS Foundation, and providing our students with every opportunity we can.					To continue as I lead now. Maintain a fair and balanced budget and watch over a growing city. My campaign slogan has always been "Working for You" and that's what I live by as an elected official.

	Served 2 years as Fiscal Officer for the Village of Metamora. This experience will help me with this position. Working in Metamora helped me understand the public sector. Most of my professional life has been in the private sector as an Accounting Manager, Business Manager, Senior Investigator, and Chief Fiscal Officer. I am sure there will be more to learn working for a Township.					Resident 42 Years Councilman 6 years (Currently Council President) 20 years on Board of Zoning Appeals prior to serving on Council
